MOTIVATION LETTER

July 13, 2026

Dear Hiring Manager,

I am writing to express my interest in the UI/UX Designer position at Netleaf. As a Software Engineering graduate from the University of Calgary, I have developed a strong passion for creating user-friendly and visually appealing digital experiences for users.

Throughout my academic projects, I gained experience designing website prototypes, wireframes, and user interfaces using tools, including Figma, HTML, CSS, JavaScript, and React. I enjoy combining creativity with problem-solving design interfaces that are both functional and accessible for users.

I am particularly interested in this opportunity because it would allow me to apply my technical background while continuing to develop my design skills in a professional environment. I enjoyed collaborating with team members to achieve project goals.

I am excited to contribute to your team and learn from experienced professionals. Thank you for considering my application. I look forward to the opportunity to discuss how my skills and enthusiasm can contribute to your organization.

Sincerely,

Angelo Jerome Reynante
