EXPERIENCE

Front End Developer Sep 2024 — Jun 2025

Tartigrade Ltd - Calgary, AB

- Developed and implemented the front-end of a Java-based file-sharing.
- Designed intuitive, responsive user interfaces.
- Integrated front-end with backend services, including Ceph, for seamless file management.

Software Engineering Projects Sep 2021 — Apr 2025

University of Calgary - Calgary, AB

- Built a Python CLI app for country data visualization with line and bar graphs.
- Developed a full-stack e-commerce store with product browsing, cart, and secure checkout.
- Created a note-taking web app with persistent storage for creating, editing, and organizing notes.
- Designed a memorial tribute platform with AI-powered text-to-speech for personalized voice memorials.
- Developed a cooking guide website featuring recipes, ingredients, and search functionality.

EDUCATION

University of Calgary 2021 — 2025

Calgary, AB | Bachelor of Science in Software Engineering

- Completed a capstone project on File Explorer with Modern UI Design.
- Graduated with a Bachelor of Science with Honors.

ACHIEVEMENTS

President's Admission Scholarship, 2022 from University of Calgary
